

MEETING:

WE ARE THE LIFEBLOOD OF THE WORLD

What's youth participation? Which are its demonstrations? Everyone of us have a right answer to this questions! We've organized the meeting WE ARE THE LIFEBLOOD OF THE WORLD to share these opinions with each other.

Two groups have been the promoters of the initiative, each group of four young people, that have participated, separately, in the two Juvenile International Forums "Young and Participative" - one in Lecce from the 11 to the 14 December 2009 and the other to Lefkas from the 29 March to the 2 April 2010.

During this meeting that we as a group organized back in Italy, we met young people and other citizens from the town, and we shared with them all the information about youth participation and about the European program "Youth in Action".

We also promoted this program showing slides, video and others documents that explain what it is and first of all "what we do to be Active"!

The "Ambassadors of Participation" (title conferred to the participants after having taken part to the two trainings course in Lecce and Lefkas) have get together a big number of citizens and have introduced them the initiatives of the European Union for young people, , to share experiences and ideas, and to create concrete projects that always bring to a great influx of young people in the social activities, to contribute both to the improvement of the community, and expansion of the own self-esteem!

Helping the others and actively participating in the social , economic, political life etc... each of us can include the really great Value inside the society.

A great tool made to reach such objectives is the European program "Youth in Action", introduced to the public its various actions: the various typologies of demonstrations are been described that can be organized through this program and then, in an open space, each one has had the possibility to propose his/her own ideas and to discuss on their possible realization.

Surely the meeting WE ARE THE LIFEBLOOD OF THE World is not only the final result of the two trainings course of Lecce and Lefkas... first of all it is the point of departure of a big process that will involve young people ... more and more, together with a same objective: improve the society with the active participation!
